

ERTB

ELECTRONIC RAILWAY TICKET BOOKING

Introduction:

This whole system is based on a concept to reserve train tickets of various destinations with many other features like Food Services, Accommodation, GPS, PNR Status, WiFi, Etc.

Objective:

This System Helps The Passengers To Make Their Reservation And Other Services Flexible Without Visiting The Railway Station.

Features:

- 1.E-Ticket Reservation.
- 2.PNR(Passenger Name Record) Status.
- 3.GPS Of Train(Current Station).
- 4.WiFi Service(While Travelling).
- 5.Food Catering Service.
6. Accommodation For Passengers.
- 7.Charter Train Booking.
- 8.Trains Between Stations.

Advantages:

1. The main advantage of e-ticketing is the fact that you can book, purchase and print out the electronic ticket any time 24 hours a day.
2. Train travellers can order food of their choice from major food outlets which fall en-route to their destination stations.
3. GPS helps relay real-time information, something that in turn helps keep disgruntled passengers informed as to why the train may be late, where it is at the moment and when it is expected to arrive.
